“Heathcote Botanical Gardens primary concern is the health and safety of their volunteers, staff and guests and we are following best practices for our “new normal” while keeping the Garden open for public enjoyment. The Garden practices social distancing and requires the wearing of masks if you are within 6ft of someone who you do not reside with. Maximum group sizes as defined by the State of Florida are adhered to which sometimes necessitates timed entry. Hand sanitizer stations are located throughout the Garden and the restrooms have a strict cleaning schedule.”
