## 2018 EPG Service School Registration

Pumps & Controls Class April 10-13, 2018

### What's New:

EPG Service School is now ONE comprehensive class over 4 days.

### Overview:

Continual education is invaluable in today's industrial economy! That correlates precisely to proper equipment decisions, reduced operating and maintenance costs, lower budgets & peak performance.

EPG Companies Inc. provides just that! We offer a hands-on educational experience\* designed to develop your knowledge, expertise and troubleshooting ability as you serve in your industry.

\*Includes classroom discussion, presentations, and hands-on training. You will be awarded 20 CEUs (continuing educational units) through SWANA (Solid Waste Assoc. of North America) to apply toward qualifying certifications.

### Attendees:

- Design Engineers
- Landfill Operators/Managers
- Installation Contractors
- Site Maintenance Personnel
- Owner/Operators

EPG classes are applicable for all who are involved with the design, maintenance and/or installation of Liquid or Gas Handling Systems and/or Remediation Systems.

### Class Topics Include:

- Use of Test Meters
- Arc Flash & Grounding
- Motor & Electricity Basics
- Pump Basics
- Pump Controllers
- Control Panels
- Level & Flow Meters
- Pneumatic Pumps
- Installation & Start-Up
- Operations & Maintenance
- Flare Maintenance
- Landfill Gas
- Telemetry & HMI

\*Several hours of "Hands-On" experience included.

Each attendee will receive printed copies of the lecture material, a hand-held level/flow simulator, and a clamp-on style electrical multi-meter to take with them.

Each class fee includes the cost of four nights hotel. Attendees must secure the room with a credit card but will only be charged any additional nights beyond and any other hotel expenses. Lunch is provided each day and dinner each evening (except Friday).

Registration & Payment is due by March 13, 2018 Cancellations: No refunds after March 20, 2018
