Nominee Name	Company Name	Location	Company Type	Meets the Regional Needs of the board?	Meets the Company Type needs of the board?	Meets experience needed on a Board Committee?	Years Experience using Eclipse	Experience in Eclipse	Additional Comments
Gerry Mauthe	B.A. Robinson	Winnipeg, MB Canada	Electrical Plumbing HVAC	Yes - Canada	Yes - HVAC & Plumbing	Yes - Vendor Relations	2.5	IT Product Data Pricing	Gerry has been with BA Robinson for about 3 years and has over 35 years experience with business software in various industries, a large portion of that in Wholesale Distribution and Retail. Gerry feels that Users Groups can be highly effective for accomplishing 2 main objectives: Protecting the Software clients investments & Ensuring that existing customers are kept to date with updates and news between the vendor (Epicor) and it's customer base. Gerry also suggests that various communication vehicles must continually be utilized to ensure feedback on product enhancements are exchanged, support concerns with the vendor vetted and take into account ideas from the larger body of Eclipse customers.
Brad Bolton	Cregger Company	Columbia, SC	Electrical Plumbing HVAC		Yes - HVAC & Plumbing	Yes - Web Development	9.5	All Areas	Brad has been with Cregger Company for about 9 years as the Director of IT. During that time he has also been involved heavily with other operational aspects of the company. Brad has built the majority of the training documentation for Eclipse that Cregger uses for it's employees at a branch and corporate level. He has also been on the technology committee for the buying group WIT for 3 years. Brad is very enthusiastic to do his part to contribute to the improvement of the Eclipse product as a whole and to network with other distributors to help improve efficiencies across the board.
Vasiliy Zelenko	Eastern Industrial Supplies, Inc.	Greenville, SC	Industrial Supplies		Yes - Industrial Supplies	Yes - Web Development	10	ERP System Admin	Vasiliy is the ERP System Administrator for Eastern Industrial Supplies and is referred to within his company as the "Eclipse goto Guy". Although he has only been with Eastern for one year he was with another Eclipse customer prior and has ten years of experience on both Eterm and Solar. His background also includes Corporate Trainer and he has trained users on how to use Solar Eclipse. Vasiliy has worked with several Eclipse vendors including BDL, Zerion, MITS, Phocas, Avalara, Innovo, BillTrust, Kore Technologies, and SPA. He also has experience in writing subroutines and programs for Eclipse back end. Vasiliy believes with his knowledge of web development he can help to improve the Eclipse Users Group website by improving the search, navigation and organization as well as including more social media content.
Jerry Noble	Marks Supply	Canada	HVAC Plumbing	Yes - Canada, Kitchener, ON	Yes - HVAC & Plumbing		4	Purchasing Warehouse	Jerry has been with Marks Supply for 2 years and is the Vice President of Supply Chain. While he has only been with Marks Supply for a couple of years he was at another Eclipse customer prior to that for 2 years giving him a total of 4 years experience on Solar and Eterm both. Jerry also brings a unique point of view on the functions in Eclipse due to his 10+ years using a competitive product SXE. He is currently responsible for all purchasing and warehouse functions but is well versed in all aspects of the business. Jerry is also in the midst of adding a position that would exclusively deal with the implementation of Eclipse based functionality that they are not currently using or not using to its full potential. Jerry has been a driver of change in all companies that he has worked for and is always looking tom improve the functionality of the software in any way he can.
Bill Meldrum	Etna Supply	Grand Rapids, MI	HVAC Plumbing		Yes - HVAC & Plumbing		20	All Areas	Bill has been with Etna Supply for 22 years and ran one of the two DC's for 20 years. Etna went live with Eclipse November 2010 and Bill was a member of the core group that worked and learned from the Eclipse experts. He then trained and became part of the "Goto" group after Eclipse personal left them on their own. Bill is responsible for operational efficiency in process, procedure and the writing of company standard operating procedures and continues to train on all aspects of Eclipse. He loves working with Solar Reports and bringing back results that answer business questions that many never considered or thought possible to have a system report on. Bill feels he has business and Eclipse experience that would bring value to the Users Group and is excited for the opportunity to help.
Justin Gibbs	Crescent Electric	East Dubuque, IL	Electrical	Yes - Locations in all regions except Canada			3	All Areas	Justin has been with Crescent Electric for 15 years and is the Corporate Operations Support main contact for Eclipse and Job Management. The small group that he is a part of supports approximately 1600 employees in about 140 locations. He is also the current lead for the Job Management community on the IDEAS Site. Crescent Electric started prepping for deployment in early 2013 and Justin was involved in that process and has worked in Solar Eclipse ever since. He is currently working on the RF Warehouse rollout that is in the near future. Justin strongly feels that groups and committees can become stagnant without new points of views being added to the mix. He feels that the perspective that he would bring from his company as being newer to Solar and spanning different geographic areas would be beneficial to the Eclipse customer base.
Kristina Harding	Parrish-Hare Electric Supply	Dallas, TX	Electrical				5+	Sales Job Management	Kristina has been with Parrish-Hare Electric Supply for over 11 years and is currently the Manager over the Lighting Project Managers. Parrish-Hare went live on Eclipse in 2009 and Job Management in 2010 and she has been a trainer in many departments. Kristina believes it is well worth the time for all users to learn all aspects of the system, that each department is just a small piece of the larger puzzle. She is now actively using the Direct Through Stock program in Job Management & Eclipse and has talked with several other distributor friends to share the experience and information. Kristina feels that being the voice to make our Epicor systems even more effective and productive would be rewarding for not only her personally but for all Eclipse Users Group members.
