2023 CDT Code Changes

Effective January 1, 2023, 22 codes have been added to the CDT. We encourage every dental practice to invest in a current CDT book each year to accurately communicate dental treatment with patients and payers. It's important to always submit a clean claim, which includes submitting current CDT codes. Submitting deleted or inaccurate codes can cause delays. See the following table for code additions and deletions. If you have questions about submitting a claim, email our Provider Relations department at ProviderRelations@deltadentalva.com.
