DELTA DENTAL®

2022 CDT Code Changes

Effective January 1, 2022, 15 codes have been added to the CDT. We encourage every dental practice to invest in a current CDT book each year. It's the language every dental office uses to create smiles by accurately communicating dental treatment with patients and payers.

It's important to always submit a clean claim, which includes submitting current CDT codes. Submitting deleted or inaccurate codes can cause delays. See the following tables for code additions and deletions.
