Announcing NEW option for our
Mesh Safety Enclosures in 2019

“Canopy”

Heavy Duty Mesh

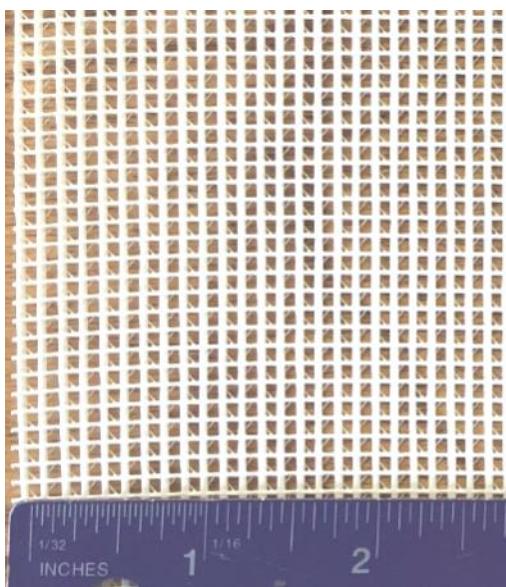

Haven Bed

We are proud to announce a new feature to our mesh enclosure options, the Heavy Duty mesh option. Compared to our standard mesh, the heavy duty option provides:

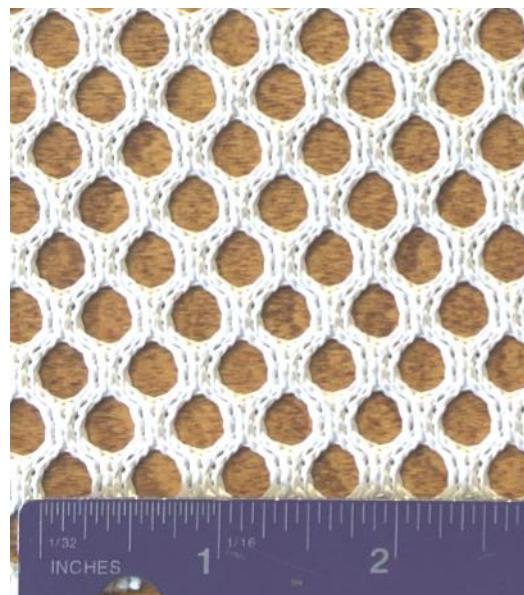

- Greater tear strength
- Increased air flow due to the 1/4" diameter holes
- Improved visibility due to the 1/4" diameter holes
- More “stretch” than our standard mesh

To get this upgrade, simply ask for the heavy duty option when quoting either the Haven bed, or Canopy.

Standard Mesh

Heavy Duty (HD) Mesh

**Note: larger holes (1/4" dia) may not be
suitable for tiny fingers**
