Sharon's interests include arts, politics, business, ecology, spirituality, health sciences and being a jazz DJ is one of her favorite avocations.

Session Synopsis:

Mentorship is by far one of the most rewarding relationships we can practice and one of the most valuable gifts we can experience. We all know clubs with a mentor program are far more successful in retaining members. Mentorship has practical applications in how we succeed in the world of work and in our lives as well. In the decades to follow 2020, we are going to need mentorship visionaries equipped well enough to respond to all we learned and continue to learn in the aftermath of this pandemic.

The world is changing in exciting, expansive ways and mentorship of the future must reflect that same energy and imagination.
Sharon Klopner will share with you the magic of the Alchemy of Mentorship and how it can support your success in the years to come. You will get some great takeaways, be able to apply them in your clubs and in your lives as well.
