Session Synopsis: Collaboration with Kamaria Campbell, DTM

Here's a great way to recruit members to your club and also help current members get their DTM. Speechcraft is an innovative membership recruitment program that helps experienced members teach prospective members about Toastmasters and earn DTM credit in the process. Additionally, Speechcraft is now a digital experience that connects directly to the Toastmasters Pathways program. Gary and Kamaria will provide an overview of the program, plus share resources to help you get your club started with Speechcraft. Even if you're familiar with the old Speechcraft, you'll learn some cool new things in this session!
