## Lights, Camera, and Makeup!

Damaris Torres - 03/01/2017

The Fashion Makeup Club was an exciting experience. I got to see what it felt like to be in the club when I visited. The most-used makeup brand I saw was Elf and the Anastasia Beverly Hills. When I asked some of the girls what they have done so far in that club, most of them said they learned how to do their makeup better. I also interviewed Ms. Johnson, the sponsor of the club. I asked her where she buys her makeup. She said, "I mostly buy my makeup at Sephora and Ulta." All the girls in the room looked very happy to be in the club. They also made my photographer Linda Barrios and me feel welcomed when we visited.

Right here, Monica Delgado is filling in Crystal Roman's eyebrows.

It was very exciting going to Creative Journaling, hosted by Mrs. Urbina. The club creates and decorates their own personal journals. Some have folders, but they decorate those as well. I interviewed a member of the club, Andrea Najera-Alvarez. I asked, "Do you use paint?" She said, "Yes, sometimes." I also asked, "What do you normally do in the club?" "Journal, draw, and use stickers and markers," she answered.

## Animal Adventures

Silverio Hernandez - 03/01/2017

Jeremy Alvarez and Joey looking at pictures of sealions.

It was cool seeing what they do in Animal Adventures (Ms. Sacco's Maker Club). They talk to animal experts and look at pictures of animals they're learning about. Marina from Animal Adventure's said, "We love what we are doing in here." When I visited, the students were learning that sea lions like to play with basketballs because they can balance them on their nose.

## **Tye-Dye Design**

*Adriana Mancinas - 03/01/2017*

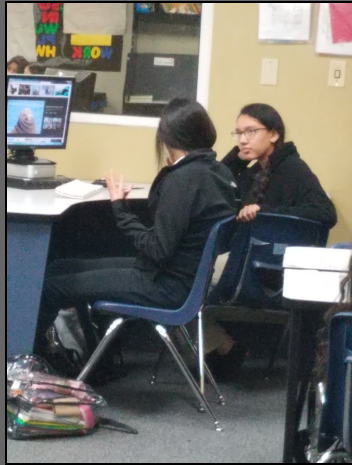

The Fashion Design Club, sponsored by Mr. Painter, is very creative. When I visited, they were doing tie-dye t-shirts. It looked very colorful! Last week, they were watching fashion videos to learn a little bit more about fashion. It looks like they are enjoying the club and can have fun experimenting with different kinds of fashion. By just watching tutorial videos, they were very creative with the tie-dye designs. I interviewed student Emiliana Martinez. She said, "It is fun because they get to use so many color and make things beautiful!"
