Summary of remote classes

Josephine Herrick Photography	JHP offers free photography programs to students of all ages around New York City; they teach self-expression, inspire creativity, while engaging the community.
STEM	STEM for Kids provides Web-Design and Coding programs for K-12 scholars.
Splat Lab	Anthropology Arts (Splat lab) is an enrichment program that provides unique arts based and cultural studies for students K-12.
Tech Row	Tech Row Fund delivers Stem based programs that activate children's interest in music, robotics and more.
Art	The YWCA will host Art classes that will explore techniques, creativity and structure.
Dance	The YWCA will host Dance classes to increase students' physical activity, while focusing on choreographing and team work.
Fitness	The YWCA will host Fitness classes to increase students' physical activity through proper technique, fun activities , and to keep students motivated
Everyday Heroes	The YWCA will host Everyday Heroes to increase students consciousness of self, people that inspire them, by studying Superheroes and comparing them to civil rights heroes.
