

# Personalized Learning Informational Resource Parent Pack

Inside this packet you will find the digital resources your students use in school that will be available to them over the summer.

# What is Clever?

“In simple terms, Clever is your school’s digital learning platform, one friendly place for resources, communication, and instruction. With **single sign-on** (SSO), everything is one click away for your community of students, families, and educators. And it works the same at school and at home.”

# Kindergarten & 1st Grade

**Did you know?** Studies have shown students can lose up to two months of reading skills over the summer break, known as the “summer learning slide.” The good news is, you can keep your child engaged in productive yet fun learning experiences that will set them up for success next school year.

This summer, students in Kindergarten and 1<sup>st</sup> Grade will have access to an online learning programs called Reading Eggs and MathSeeds (featuring other learning areas known as Reading Eggspress and Fast Phonics). Students can explore a game-like world where they work at their own academic level to build reading and comprehension skills. Your child already has a personalized learning pathway in both programs that they have been using at school, but now the learning can continue during summer break!

## Where can my child find their work?

### Reading Eggs

**My Lessons** (preK-2): The “learn-to-read” area focusing on letter sounds, phonics skills, sight words, reading simple sentences, and introductory comprehension skills.

**Fast Phonics** (preK-2 and older students with gaps in their core reading knowledge): The introductory learning area supporting early readers with basic phonics skills like letter-sound recognition and spelling.

**Library:** Includes a collection of 2,500+ fiction and nonfiction e-books to support independent reading at each child’s appropriate level.

### MathSeeds

**Lessons:** Students progress through lesson son their math skills increase, earning golden acorns and pets as rewards.

**Mental Minute:** Designed to build math fact fluency - the ability to recall basic math facts accurately, quickly and with ease.

**Driving Tests:** Highly motivating tests that assess students’ skills and knowledge with a fun reward game!

## What does the learning journey look like?

Each learning area includes built-in rewards to keep students motivated. In Reading Eggs and Mat Seeds, students begin by completing a short placement quiz before launching into an appropriate learning path of activities. As students successfully answer questions, they are rewarded with Golden Eggs, Acorns, or Yeti coins in Fast Phonics, which can be redeemed to accessorize their avatar or play games.

## Where can my child see their progress?

From each of the learning area dashboards, lesson progress and Golden Egg, Acorns, or Yeti coin totals are displayed front and center.

Please contact the personalized learning team at [personalizedLearningTeam@diobpt.org](mailto:personalizedLearningTeam@diobpt.org) if you have questions or need support once the school year ends.
