**ENE appoints Former DPU Chair Hibbard as Board Member**

**Mansfield, Massachusetts, March 31, 2023** - The Energy New England, LLC (ENE) Board of Directors have voted to appoint Paul Hibbard to the ENE Board as an outside Board Member. Before joining his current employer as Principal at Analysis Group, a global economic and financial analysis firm that conducts research for complex, real-world, analytical problems, Paul was Chairman of the Massachusetts Department of Public Utilities (DPU). During his tenure with DPU, he carried out a forward-looking ratemaking and policy agenda to advance energy efficiency and renewable resources. He also focused on coordinating regional efforts in the development of energy resources and promoting the administration

of fair transmission pricing models.

William Bottiggi, General Manager of Braintree Electric Light Department and Chairman of the ENE Board lauded the addition of Paul Hibbard to the ENE Board noting; “Paul joins our experienced and diverse set of Board Member energy experts with incredible insights to the best path forward to achieving the Commonwealth’s goals of carbon free future.” Hibbard has a comprehensive background in the energy and environmental fields merging business development, technical analysis, resource planning, and public policy. He has many years of experience providing strategic advice to government, industry, business, public interest groups, and trade organizations. In past roles Hibbard has provided extensive testimony as an expert witness on resource planning, competitive electricity markets, greenhouse gas regulations, and transmission pricing in hearings. “We could not be happier to have Paul joining the ENE Board at a time when the region and the energy industry are going through changes and policy decisions that require insightful thinking to meet these challenges and deliver on the goals of the Commonwealth and the region”, said John G. Tzimirangas, President and CEO of ENE. “ENE is proud to have Hibbard join the board and looks forward to the contributions he’ll make.”

**ABOUT ENERGY NEW ENGLAND (ENE)**

ENE is the largest wholesale risk management and energy trading organization in the Northeast serving the needs of municipal utilities in New England. ENE works with businesses, residents, and municipal utilities to help promote the principles of conservation, efficiency, and environmental stewardship, and advances the many benefits available through integrated sustainability planning – including home energy audit programs, electric vehicle programs, wholesale energy procurement and risk management programs, regulatory and lobbying services. For more information about ENE and our services please visit: [www.ene.org](http://www.ene.org)
