

A DIVISION OF WESCO DISTRIBUTION, INC.

## Open House - April 16, 2020

Stop by to see our  
**NEW, STATE OF THE ART FACILITY**

### OFFERING:

- **Updated Rubber Testing Lab:** Fully climate controlled and completely revamped for efficiency. Several new pieces of equipment provide optimal testing.
- **New Finn Press:** All ground and jumper ferrules are crimped utilizing a Finn Press. The Finn Press produces a computerized, consistent crimp every time that meets or exceeds pull out standards in the event of an electrical incident and is consistent with OEM standards. This service enhancement was made to provide the highest level of safety for the end user as well as Hi-Line's technicians.
- **Fully stocked warehouse:** Fully stocked to support safety needs, including rubber goods, grounding components, and more.

*Hi-Line staff will be onsite to answer and discuss our services.*
