This email contains the materials for the 2022 Policy Makers Council (PMC) summer meeting. Attached are the final meeting agenda and key messages. Please see below for a list of current issue briefs with links to access them on the [APPA website](#) and a link to the congressional meeting recap form. If you have any questions about the materials, please let me know.

The key messages focus on the following issues – supply chain, climate, comparable incentives, bond modernization, grid security, and energy infrastructure investments in the form of clean energy, distributed energy resources, transmission, and electric vehicles.

This is a final friendly reminder to register (info below) for the annual Policy Makers Council (PMC) summer fly-in if you plan to attend and haven't registered yet. ***It is vital to register in order for us to have an accurate count for meals and the reception.***
