

All,

This week we're taking a closer look at compact laminates and how they are/have changed the laminate game. This course is being presented by Jon Rauch with Lumberman's/Wilsonart. His information, along with a description of the course, and the virtual login (Webex) information is below. If anyone has any issues logging in the day of the event, or registering, please feel free to contact me directly and I will do my best to help you out.

CEU Course Description

Appropriate Architectural Uses of Compact Laminate

Advanced manufacturing technology has birthed a new era of engineered surfaces. No longer your grandmother's laminate, Compact Laminate – a high pressure solid composite laminate – breaks the mold with superior impact, fire-rated, chemical and stain resistant characteristics. In this course, we will explore innovative ways to utilize the enhanced performance capabilities of Compact Laminate in various architectural applications such as healthcare, food service, locker rooms, and other public spaces.
