

THE AMERICAN INSTITUTE  
OF ARCHITECTS

## AIA NORTHERN MICHIGAN NEWSLETTER

Issue: October 2019

### AIA Northern Michigan Lunch + Learn Presentation

When: Wednesday, October 30, 12:00pm

Where: TC Chamber of Commerce

Sponsor / Presenter: Barbara Church (Trellis)/Bari Pfeiffer (Light Art)

Program: Everything is Acoustic. (1 AIA LU/HSW)

**Description:** This course functions as an acoustics overview for architects and interior designers. It includes a brief history of acoustics, an in-depth look at acoustic applications, and strategic acoustic design case studies. Additionally, the course addresses key acoustic terminology to aid in the process of specifying acoustic projects.

**Learning Objectives:**

- A greater understanding of acoustic product specifications and details.
- The ability to directly compare the benefits of acoustic lighting to more familiar treatment methods, such as wall panels or hanging baffles.
- Knowledge of the benefits and misconceptions of using acoustic materials and products. (objects in space vs. wall treatments)
- Understanding of how to apply acoustic treatments to current or future designs.
