

CHARTIERS VALLEY

SCHOOL DISTRICT

Inspiring excellence.

Parents and Guardians: In an attempt to keep Chartiers Valley School District in-person learning safe for all students, please complete this short checklist each morning. If any boxes in Section 1 or 2 are checked, **please keep your child at home and contact your child's doctor for guidance.** This checklist does not need to be turned into the school but should be readily accessible at home as a useful screening tool.

Section 1: Symptoms

If your child has any **ONE** of the following symptoms, that indicates a possible illness that may decrease the student's ability to learn and also put them at risk for spreading the illness to others.

<input type="checkbox"/>	Temperature 100.0 degrees Fahrenheit or higher when taken by mouth
<input type="checkbox"/>	Sore throat
<input type="checkbox"/>	New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in their cough from baseline)
<input type="checkbox"/>	Diarrhea, vomiting, or abdominal pain
<input type="checkbox"/>	New onset of severe headache, especially with a fever

Section 2: Close Contact/Potential Exposure:

<input type="checkbox"/>	Tested positive for COVID-19
<input type="checkbox"/>	Had close contact (within 6 feet of an infected person for at least 15 minutes) with a person with confirmed COVID-19
<input type="checkbox"/>	Traveled to or lived in any of these places: https://www.health.pa.gov/topics/disease/coronavirus/Pages/Travelers.aspx

It is important to remember that parents and guardians are instrumental in preventing the spread of COVID-19. Therefore, if you believe that your child may be sick or has been exposed to COVID-19, the best decision is to keep them home from school.
