

## Cybersecurity Across the Curricula:

### Hospitality and Tourism

In this section each month, National CyberWatch will promote and help schools integrate interdisciplinary cybersecurity learning modules across the curricula. We'll highlight a topic that's mapped to an existing course taught at most two- and four-year institutions, with links to download additional resources.

This month's topic is Hospitality and Tourism, which maps to a Career and Customer Service Skills course. Topics include:

- Overview (link here: <http://maui.hawaii.edu/cybersecurity/wp-content/uploads/sites/13/2018/11/CyberSecurity4All-Teaching-cybersecurity-across-the-disciplines-.pdf>)
- Sample syllabus (link here: <http://maui.hawaii.edu/cybersecurity/wp-content/uploads/sites/13/2019/01/HOST-100-Course-Syllabus-Fall-2018-MW.pdf>)
- Cybercrime Checks Into Hotels: Cybersecurity Threats and Countermeasures (link here: <http://maui.hawaii.edu/cybersecurity/wp-content/uploads/sites/13/2019/01/HOST-100-Basic-Security-Concepts.pdf>)
- Digital Keys in Hotels Case Study (link here: <http://maui.hawaii.edu/cybersecurity/wp-content/uploads/sites/13/2018/08/HOSPITALITY-Digital-Key-Case-Study.pdf>)
- Sentiment Analysis lab exercise (link here: <http://maui.hawaii.edu/cybersecurity/wp-content/uploads/sites/13/2018/11/Nifty-Assignment-Sentiment-Analysis.pdf>)

Thanks to Dr. Debasis Bhattacharya, DBA, JD, Director of Center for Cybersecurity Education and Research (CCER), Assistant Professor, University of Hawaii Maui College for sharing these resources with the larger community.

Have a cross-disciplinary learning module you'd like us to promote. Contact us at [info@nationalcyberwatch.org](mailto:info@nationalcyberwatch.org) to help us spread the word.
