

Alícia Kelley is a Master of Public Health candidate at the Columbia University Mailman School of Public Health. She is studying Environmental Health Sciences with a certificate in Molecular Epidemiology. She previously earned a BA in Environmental and Ocean Sciences with a minor in Chemistry. This summer, she is interning with the Columbia Center for Children's Environmental Health as an Arsenic Project Research Worker. She is interested in working with communities in the field of climate change and health. Alícia enjoys exploring the city, discovering new restaurants, and doing aerial silks in her free time. Alícia is also an intern with WE ACT.
