Patient Reference

Matrix Nutritional Series

Buffered Vitamin C Immune Support

Matrix Nutritionals Series was designed as an eclectic offering for the Physica Energetics line of remedies primarily to assist in the "reactivation of the mesenchyme" (Dr. Reinhold Voll), via the nutritional complement pathways. These pathways are present in every system throughout the body and require balanced attention. In keeping with the principles of BioEnergetic Medicine, the remedies nourish and support these systems without punishing them with overstimulation or imbalancing factors, which, ultimately, is counterproductive. This approach has been carefully and respectfully designed to provide the necessary natural (organic where available), synergistic factors in proper energetic and biochemical ratios, to ensure assistance towards yielding a deep and lasting result. They are not to be confused with replacement therapy nutraceuticals that may seem to help for the moment, until the patient stops taking them or the condition is driven deeper. These remedies honour The Legacy of BioEnergetic Medicine, and are known by both patient and practitioner to be exceptionally effective.

Alkalize-C is a hypo-allergenic, alkalyzing, neutral pH, "non-bowel tolerance" buffered Vitamin C, trace mineral powder.

Vitamin C is an essential vitamin that can only be obtained through diet. It is a powerful antioxidant, required for at least 300 metabolic functions in the body.

Vitamin C plays a critical role in tissue growth and repair. It supports connective tissue by building collagen and is required for the production of folic acid, phenylalanine and tyrosine. It enhances the absorption rate of iron in the body and supports the adrenal glands through the formation of anti-stress hormones.

Stress at all levels, greatly increases the need for Vitamin C. Smoking significantly decreases Vitamin C levels, as does the use of estrogen supplementation (i.e. birth control pills, or hormone replacement in menopause), cortisone and aspirin.

Research on Vitamin C therapy offers promising results. Supplemental Vitamin C has been shown to offer protection against heart disease and for the treatment of Arthritis and cataracts.

Vitamin C deficiency is common in mentally ill patients. Clinical research trials have shown vitamin C supplementation to be effective in the treatment of schizophrenia and other mental illness.

Strong evidence exists for Vitamin C therapy in Cancer treatment. Research trials show that mega-doses of Vitamin C may increase survival rates for terminally ill cancer patients. In addition, the ability for Vitamin C to counteract the effects of toxic

chemicals and radiation can offer protection against the damage caused by traditional cancer treatment.

This buffered form of Vitamin C reduces potential gastric irritation in sensitive individuals

Vitamin C is able to combine with certain heavy metals, rendering them harmless and enabling their removal from the body. Supplementation should thus be considered in the case of any heavy metal detoxification protocol or dental procedure dealing with the removal of mercury amalgams.

Although Vitamin C is one of the most commonly supplemented nutrients, most formulas found in health food stores cannot be assimilated and high doses of these formulas needed for therapeutic benefit can lead to some uncomfortable side effects, i.e. diarrhea and the subsequent loss of essential trace minerals.

Alkalize-C is a non "bowel tolerance" Vitamin C alkalizing mineral drink. As a powerful immune enhancer, it aids in the reduction of oxidative stress and supports healthy adrenal function.

A combination of high quality ascorbic acid and supportive essential trace minerals, **Alkalize-C** protects against trace mineral loss which sometimes accompanies high ascorbate therapy. These carefully selected trace minerals support the production of energy, reduction of oxidative stress, cellular repair and healthy immune function.

Alkalize-C is an excellent addition to any healing strategy, especially in cases of adrenal insufficiency, compromised immunity or heavy metal detoxification.

Ingredients (per 1 tsp):

Calcium (Ascorbate) 150 mg
Chromium (GTF - Polynicotinate) 50 mcg
Lemon Bioflavonoid 10% 10 mg
Magnesium (Ascorbate) 215 mg
Manganese (Amino acid chelate) 5 mg
Molybdenum (Amino acid chelate) 100 mcg

Potassium (Ascorbate) 100 mg
Selenium (Amino acid chelate) 50 mcg
Vanadium (Amino acid chelate) 100 mcg
Vitamin C (Ascorbic Acid) 4000 mg
Zinc (Amino acid chelate) 15 mg
Natural Orange Flavour, Natural Stevia Leaf Extract
