Ticket cost  
\$25.00

## Successful Contract Management & Performance

**T**he JARI PTAC invites you to attend the Government Contracting Series workshop sponsored and presented by Wessel & Company on Wednesday, May 31, 2017. As a manufacturer, a service company, or a technology firm, you already have the right tools to produce a quality product, execute high level service, or deliver the latest and greatest technology. To be successful in federal government contracting, you also need to be equipped with the right tools to manage contract risk, stay compliant, and make a profit. Being duly informed of regulations, requirements, and best practices are all crucial for success. Our team of presenters has many years of experience and expertise and are ready to share this information with you.

This educational program is intended for program managers, contract, procurement, or finance professionals who are involved with companies that have prime or subcontracts with the Federal Government (or companies who want to begin to get involved with government contracts).
