

WILL **THE COMPANY** BE FRIENDLY TO YOUR **FUTURE**?

HAVE YOU STARTED
SAVING FOR **2027**?

The current Telus collective agreement expires on March 31, 2027, at which time it will be renegotiated. No one wants a labour dispute, but if one did happen, would you be financially ready?

If you start saving
\$100

per paycheque,
you will have over
\$3000

when the collective agreement expires

THE UNION PROVIDES
STRIKE/LOCKOUT PAY, BUT IT'S NOT
COMPLETE WAGE REPLACEMENT

Do not let the company hold all the power during
the next round of bargaining.

Do not let the threat of a labour dispute decide
your future.

TODAY IS THE TIME TO GET PREPARED!
