INTERNATIONAL CHRISTIAN CONCERN

We stand in the gap between two kingdoms at war. And often, it is the pastors and church leaders and their families who suffer the most.

This battle is played out regularly in India, where Prime Minister Narendra Modi and his BJP (Bharatiya Janata Party) loathe Christianity. Their tactics and rhetoric stir up the masses to inflict violence against Christians.

Pastor Babu, who has faithfully served Jesus for 15 years, and his wife were brutally attacked in their home – which also serves as their church – earlier this year. Radicals broke in at night and beat him with clubs.

The couple endured costly medical bills and a loss of income as churchgoers were fearful to return. Pastor Babu continues to suffer blinding headaches. International Christian Concern (ICC) covered his medical and living expenses.

At ICC, we care for the fallen, the beaten, and the persecuted like Pastor Babu.

Two kingdoms at war, and many who fall. Thank you for standing with them.
