NOTICE TO MARINERS

2021 Geophysical, Environmental and Geotechnical surveys for planned Offshore Windfarm Beacon Wind & Export Route.
Rev 01 - Issued: 2021-03-15

Mariners are advised that survey vessels and equipment will be used in the offshore areas of the Export Route to Beacon Wind from the first week in April 2021.

The surveys will be performed by MMT and CSA on behalf of Equinor US using survey vessels Deep Helder, Dolphin and Danielle Miller.

Vessel: DEEP HELDER
Call sign: PBYU
IMO: 9690872
Owner: Seamar
GSM: +31 61 90 06 277
Email: bridge.helder@seamar.nl

Vessel: DOLPHIN
Call sign: WDL 6143
IMO: NEU00325L989
Owner: CSA
GSM: 281-507-0233
Email: cechols@conshelf.com
NOTICE TO MARINERS

During the survey the vessels will be deploying subsurface survey equipment along the Export route corridor and in the beacon Wind Lease Area and will be restricted in their ability to manoeuvre. Approaching vessels are requested to pass at a safe speed and distance.

Project Description

Starting April 1st 2021 - The Geophysical survey will be conducted by MMT vessels Deep Helder and Dolphin on behalf of Equinor US.

Starting mid May 2021 - The Environmental and geotechnical surveys will be conducted by MMT vessel Deep Helder and vessel Danielle Miller. The surveys will be in both the export route and the Beacon Wind lease area.

Mariners are advised to keep a safety clearance to the vessel of no less than 250m.

Port of Operation

Deep Helder will mobilise on April 1st 2021 and will operate from the Providence, RI. The whole operation is expected to take up to 90 days.

Dolphin will mobilise on or after 8th April.

Poor weather may extend these timings.

Key Contact Details:

Further enquiries should be addressed to the following people in the following order:

1. Sara Andersson (MMT Project Manager), T: +46 (0)733 45 19 74, sara.andersson@mmt.se

2. Kalle Flink (MMT Operations – Deep Helder), T: +46 708 11 28 43, kalle.flink@mmt.se

3. Chris Echols (CSA operations - Dolphin), T: 281-507-0233 cechols@conshelf.com
