Classroom Furniture

Overview 2024

Our Commitment

Lifetime Warranty

Our Lifetime Warranty coverage is included on almost everything we make! As a manufacturing company, we appreciate you choosing Copernicus. It is important to us that you are happy with your purchase. If you have ANY problems or questions, please contact us and we will do our best to help you!

Register your Product

Registering your warranty ensures we have all the information we need to make any future warranty claims quick and easy. By registering your product, you will be entered into a draw to win a Copernicus product. The draw is made in January of each year.

Replace your Whiteboard

Have a well-used whiteboard that needs replacing? Our whiteboards carry a five-year warranty and a replacement parts program after the warranty period.

Social & Environmental Responsibility Highlights 2023

Copernicans' Learning Journey
In our continued mission to learn more about the climate crisis, we started a new training module through Project Drawdown called Climate Solutions 101. Our aim is to hold space for discussions about the future of our planet and empower us to take action to drive change.

Nature programs
This year we successfully piloted a free summer nature program for the first time. With screen times at an all-time high, our goal is get kids back outdoors, reconnecting to the natural world.

Carbon Offsets
This year we supported several offset projects including the protection of peatlands in Indonesia, water filtration systems in Mozambique, Biogas as a renewable energy source in Kenya, and Indigenous led forest management in British Columbia, Canada. The cumulative reduction totals at 2,469.1 Mt CO2e.

We are a B Corp™

B Corps are for-profit companies, certified by the nonprofit B Lab® that meet rigorous standards of social and environmental performance, accountability, and transparency.

Solid bamboo:
Strong, durable, beautiful and renewable

The planet is in a climate crisis, so reducing the environmental impact of our products is crucial.

Bamboo products are a more sustainable choice than metal models because they have a smaller carbon footprint.

Bamboo is a renewable resource that grows quickly and sequesters carbon, unlike metal which produces carbon.

What does 'sequesters carbon' mean?
Carbon sequestration is the capturing, removal and storage of carbon dioxide (CO_2) from the earth's atmosphere. It's recognized as a key method for removing carbon from the earth's atmosphere.

Why bamboo

Stronger Than Metal

Bamboo has a higher tensile strength than metal. This means that if you pull on a piece of bamboo and a piece of metal, it will take more force to break the bamboo.

Lifetime Warranty

Our products have a lifetime warranty. If you have ANY problems or questions, please contact us and we will do our best to help you!

Quality Finish

Our finish is a nitrocellulose lacquer. Lacquers are a popular finish type for furniture, and the preferred choice of professional furniture makers.

100% Renewable Resource

Unlike trees which take years to grow, bamboo is a rapidly renewable resource.

This year, we're also ensuring that any new bamboo we source is from only FSC certified suppliers.

Bamboo Easels

These products are a more sustainable choice than metal models because they have a smaller carbon footprint. Bamboo is a renewable resource that grows quickly and sequesters carbon, unlike metal which produces carbon.

Bamboo Royal® Reading Writing Center (BE005)

This easel produces approximately 35% less carbon compared to our metal option (Classic Royal Reading Writing Center).

Double Sided Bamboo Teaching Easel (BE1 / BE1-RCY)

This easel produces approximately 38% less carbon compared to our metal option.

Bamboo Double Sided Art Center (BPC01)
Bamboo Double Sided Painting Easel (easel only) (BPC02)
Bamboo Drying Rack (rack only) (BPC-DR)

This painting easel has a lower carbon footprint and is made from a renewable resource.

Bamboo Deluxe Chart Stand Station (CS701-S / CS701-VM)

This chart stand produces approximately 26% less carbon compared to our metal option.

Bamboo Early Learning Station (ELS2 / ELS2-VM)

This easel produces approximately 5% less carbon compared to our metal option.

NEW

NEW Collaboration Whiteboards

This new bamboo easel offers plenty of space for lessons. With a large 4′ x 3′ double sided whiteboard that can be positioned in either vertical or horizontal and different height setups, the Collaboration Whiteboard is a flexible solution for lessons and activities. Multiple Collaboration Whiteboards can connect to form partitions in common areas.

Collaboration Whiteboard Premium Model with Slate Kit (CWB1)
Collaboration Whiteboard Base Model - No Slates (CWB2)
Collaboration Whiteboard Slate Kit (CWB-AC)

Add the Collaboration Whiteboard Slate Kit (CWB-AC) which includes 4 magnetic whiteboard slates with an 11″ x 11″ writing surface and brackets to attach the slates to the board for even more opportunities to brainstorm and create.

Double-sided magnetic whiteboard

Boards connect together without the need for dismantling

Double-sided magnetic whiteboard

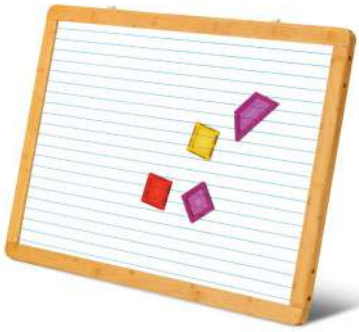

NEW Early Years Creator Center

This Early Years Creator Center enables children of multiple ages to play and learn together.
It features portrait and landscape orientations, with a magnetic double-sided board and a lower compartment for storage of numbers, letters and more for children to access on both sides.

Early Years Creator Center (ECC1)

Double-sided magnetic whiteboard

NEW Bamboo Magnetic Lined Dry-Erase Board

Easily transition across lessons with this bamboo double-sided, magnetic, dry erase board. It's lined on one side, accomodating class transitions. Hooks provide for easy hanging to any nearby surface in portrait or landscape orientation.

Bamboo Magnetic Lined Dry-Erase Board (AC465)

Bamboo Storage & Sensory Play

Our bamboo storage and sensory play products have a natural aesthetic suited for neutral and early childhood environments.

Small Bamboo Book Browser Cart with Six Tubs (BB007-6)

These carts produce approximately 43% less carbon compared to our metal options.

Available with multiple tub color configurations

Bamboo Book Browser Cart with Nine Tubs (BB006-9)

These carts produce approximately 35% less carbon compared to our metal options.

Available with multiple tub color configurations

Bamboo Book Display Rack (BBD01)

This display rack has a lower carbon footprint and is made from a renewable resource.

Bamboo Shelving Unit (BAM1 / BAM1-VM / BAM1-S / BAM1-C)

Available with multiple tub color configurations

This shelving unit has a lower carbon footprint and is made from a renewable resource.

Bamboo Sensory Table

Models with bamboo tabletop	SST01-VM SST01-S SST01-C

Available with multiple tub color configurations

Bamboo Sensory Table with Construction Bricks Tabletop

Models with construction bricks tabletop	SST02-VM SST02-S SST02-C

Available with multiple tub color configurations

NEW Bamboo Write and Store Shelf

This shelf is both a storage and activity center. The top shelf is at a height that is easily accessible to early childhood students to play, and the two internal shelves offer storage for other classroom supplies and toys. The sliding magnetic whiteboard panel is not only a place for creative play, but it functions as a cover to allow educators to display certain toys and supplies and hide when needed.

Write and Store Shelf with 1 board (BWS1)

Write and Store Shelf with 1 board and vibrant tubs (BWS1-VM)

Write and Store Shelf with 2 boards (BWS2)

Write and Store Shelf with 2 boards and vibrant tubs (BWS2-VM)

NEW Bamboo Hide-away Shelf

The Bamboo Hide-away Shelf and original Bamboo Shelving Unit are perfect as a storage or activity centers. They are easily accessible to early childhood students. The Hide-away shelf has two shelves and both models have options to include 6 Large Open Tubs.

Hide-away Shelf (BAM2)

Hide-away Shelf with clear tubs (BAM2-C)

Hide-away Shelf with sage tubs (BAM2-S)

Hide-away Shelf with vibrant tubs (BAM2-VM)

NEW

NEW Simple Machines Play Center

We're excited to re-introduce our very own STEM educational toy! It's designed from bamboo and ideal for developing brains to explore, create and learn – it's a nod to our history, when our founder developed our first science block kit over 35 years ago! It features movable ramps, pulleys and a teeter totter for gross motor skill development during early childhood.

NEW Simple Machines Play Center (SMPC1)

NEW Cozy Space

This Cozy Space features solid bamboo construction with an interior bookshelf, removable double-sided magnetic whiteboard and a place to attach a blanket or lights to suit any child's imagination. It offers a calm area in a classroom, while allowing viewing area of the students inside. Please note: greenery and other props not included.

NEW Cozy Space (CZY1)

Easels

Check out our bamboo versions on page 4

It makes us happy when we hear teachers refer to our easels as "The Command Central of the Classroom". In conjunction with our Idea Lab Educator Advisory Team, we've loaded these easels up with teacher-driven features that work all day long in classrooms around the world; rounding up materials, fostering collaboration and communication, displaying daily lessons and schedules - all in one compact footprint. Visit www.copernicused.com to see the full line up of our metal easel and storage options.

Early Learning Station (ELS1)

2-in-1 Royal® Teaching Easel with Portable Whiteboard (RC2IN1)

Premium Royal Inspiration Station (IS3)

Royal® Reading Writing Center (RC105)

Pack and Go Whiteboard Easel (PGW01)

Deluxe Chart Stand (CS700)

Double Sided Art Easel (PDR11)

Storage

Check out our bamboo versions on page 7

Our flexible and mobile options make cleaning up easier! Colored tubs help with color coding and different tub sizes and combinations help hold all sorts of "stuff".

Leveled Reading Book Browser Cart (BB005-9)

Small Book Browser Cart with Six Tubs (BB008-6)

(Available with multiple tub color configurations)

NEW option available

STEM Storage Cart (LWSTEM)

NEW STEM Storage Cart with Pegboard (LWSTEM-PB)

3D Printer Cart Premium Model with Tub Pack 2 (TD5001)

(Available with alternative tub configurations)

Our Large Open Tubs are now available in ten colors as well as clear to coordinate with any classroom theme. Clear lids are also available

Our most environmentally friendly option—made with 100% recycled post-consumer plastic. It includes an imprint to help spark conversations about the importance of recycling.

Tech Tub®

Tech Tub provides an affordable, flexible and mobile solution for charging, storing and locking up devices.

- Supports small class sizes and small groups
- Reduces deployment bottlenecks
- Future-proofs for remote learning deployments
- Adaptable to any class size, sharing devices or 1:1 settings

Individual tubs can be placed around the room to reduce bottlenecks, or used as an in-class charging station for devices returning from home uncharged. Modular Carts are a flexible solution for schools that share devices, or for libraries and STEAM labs. The tubs unclip from the cart so they can go anywhere learning takes place. A typical charging cart can't do that!

Tech Tub® (FTT700)

1 MINUTE UV Tech Tub® sanitizes in just one minute, reducing viruses and bacteria.

UV Tech Tub® (FTT-UV)

The UV Tech Tub® is here to help with the necessary sanitizing of devices required to keep classrooms as germ-free as possible.

The large chamber can also sanitize Chromebook™ keyboards and screens (when open), VR headsets, headphones, robotics and other commonly used classroom items.

Focused minds. Active bodies.

Students with the wiggles need to move!
Designed for fit, riding comfort and safety for students grades PreK-6.

We worked with teachers from our Idea Lab educator advisory team and ergonomic and engineering consultants who design high-end bikes, to develop the Self-regulation Classroom Cruiser. It provides opportunities for students, grades PreK-6, to self-regulate through movement without having to leave or disrupt the class. It is ideal for inclusive environments and helps kinesthetic learners and any student who just needs to get the wiggles out, so they can refocus and engage in learning.

Why choose our bike over others?

- Designed specifically for students PreK-6
- Durable build exceeding commercial standards
- Quiet drivetrain to minimize distraction
- Fully adjustable for the safest ergonomics
- Low maintenance

Four models to choose from:
For grades PreK-2 with desktop (SCC100) and without (SCC102)
For grades 3-6 with desktop (SCC200) and without (SCC202)

Please visit www.copernicused.com/self-regulation-classroom-cruiser-intro to see the whole Classroom Cruiser line.

7 million testing cycles!
This bike is built to last.
