Exploring Jewish Texts For Life's Difficulties & Healing

with **Leslie Mayron Coff**

Although we have all experienced trauma at different times in our lives, our current reality presents a novel collective emotional experience. Judaism has, at its core, tools through which we can view and find consolation and healing through text exploration. Share with us in this engaging evening!

Leslie was born and raised in the Reform Jewish community in Chicago, before spending decades in Los Angeles, St. Louis & Atlanta. Now in Madison, Wisconsin, she is a lifelong learner, writer and painter, mother and mother-in-law. She is a co-editor of and contributor to *The TBE Haggadah Project*, released in February 2020.

Register in advance for this meeting:
