DATE: December 20, 2018
TO: Pastors, Parochial Vicars, PLC's, School Principals, DRE's, Catechists
FROM: Bishop Michael Warfel
SUBJECT: Safe Environment Training for Children

DEADLINE: MAY 15, 2019

In 2002 the United States Conference of Catholic Bishops promulgated the Charter for Protection of Children and Young Adults. The Charter was a commitment on behalf of the bishops to the people of God in which all dioceses would establish Safe Environment programs to responsibly educate and train children, youth, parents, ministers, educators and volunteers about ways to make and maintain a safe environment for children. Upon my installation as Bishop of the Diocese of Great Falls-Billings in 2008 I mandated safe environment training for all children in accord with the USCCB Charter and Norms for the Protection of Children and Young People. This year two new programs have been approved for the children's training:

- Children's Learning Program <https://safeandsacred-diocesegfb.org/login/index.php>
- Circles of Care <http://diocesegfb.org/Safe%20Environment/Safe%20Environment%20Main.html>

Last year's audit resulted in a 95% compliance rate which is in line from the previous year. However, in light of the \$20MM legal settlement, I insist on 100% compliance going forward. A non-monetary element of the settlement is the commitment by the diocese to "continue the protection of children initiatives currently in place with the Safe Environment Policies and background checks." The Pastor/Administrator of the parish or Principal in the case of schools is ultimately responsible for adherence to this policy but I know it will not be possible without the help of all those involved. I thank everyone personally involved in training our children in ways to protect themselves.

I require this program to be positively promoted at all parishes and schools. There is a provision for parents to Opt their children out. The Opt out feature is **not** left to the discretion of the parish. Only parents may opt out their children as they are the primary teachers of their children. **Children attending Catholic schools may not be opted out of the program.** This initiative is not just so we can conform with the Charter but is truly a service to all children who may have faced inappropriate behaviors in their lives or children that may find themselves in uncomfortable situations. By providing the tools to defend themselves and recognize inappropriate behaviors, my hope is that these situations can be deterred. Simply not presenting the program is an injustice to children.

Laurie Horton serves as the Director of Safe Environment for our diocese and would be happy to answer questions anyone may have. Attached to this memo are instructions for completing the requirements for the upcoming year. Please read the instructions carefully, complete your training sessions with the children in your religious education/religion classes and submit the pertinent documentation by the due date listed above. Parishes that do not offer religious ed in their parish are required to submit proper paperwork per the attached instructions. I ask your full cooperation in adhering to the policy for the safety of our children.

RE: Safe Environment Program

Dear Parent,

Out of concern for all God’s people and in response to the United States Conference of Catholic Bishops’ Charter for the Protection of Children and Young People, we will be presenting a safe environment curriculum for our children and young people which is supported and mandated by the Bishop of the Diocese of Great Falls-Billings.

“Dioceses will establish ‘safe environment’ programs. They will cooperate with parents, civil authorities, educators, and community organizations to provide education and training for children, youth, parents, ministers, educators, and others about ways to make and maintain a safe environment for children. Dioceses will make clear to clergy and members of the community the standards of conduct for clergy and other persons in positions of trust with regard to sexual abuse.” - Article 12 of the Charter for the Protection of Children and Young People

We have taken many steps in recent years to do our part in ensuring that your children are in a safe place when they participate in our program. All of our staff and volunteers have received the required background checks and training. The goal of our age-appropriate lessons is to equip our children and young people by arming them with essential knowledge and skills grounded in the richness of our faith. This program helps children and young people to understand their own and other’s dignity in mind, body, and spirit.

The program for children in grades _____ will be held:

Date: _____

Time: _____

Place: _____

Sincerely yours in Christ,

[Pastor/Principal/DRE]

NOTE FROM BISHOP WARFEL:

Parents,

“As Bishop I insist that our parishes and schools be as safe as we can possibly make them for our children. This is a responsibility that I take seriously and insist upon, not simply to fulfill the requirements as set forth in the **Charter for Protection of Children and Young People**, but because I want to ensure the safety of all children. Safe Environment training is **not** a sex education program, but a program designed to talk to children about relationships; character development, and sexual abuse. For most people, these are not easy subjects to navigate. Therefore, the program includes engaging, age-appropriate processes to help parents discuss these sensitive issues directly with their own children. This program and others like it are supported by the Bishops of the US as well as the Holy Father, Pope Francis.”

In Christ,

Michael W. Warfel

Parent Opt-Out Form

Safe Environment Presentations

Each year parishes in the Diocese of Great Falls-Billings offer safe environment training designed to educate young people with regard to safe environments and how to protect themselves. Our Diocese recognizes that parents are the primary educators of their children. As a parent, you have the right to allow your children to participate in the safe environment training offered by the parish, or to utilize the programming materials yourself. If you choose to exclude your child/children from this training, please complete this form but before you do so, please read the following statistics:

Before the age of 18

- 1 out of every 4 girls is sexually abused
- 1 out of every 6 boys is sexually abused
- 1 in 5 children are solicited sexually while on the internet.
- Nearly 70% of all reported sexual assaults (including assaults on adults) occur to children ages 17 and under.
- The median age for reported child abuse is 9 years old.
- 85% of child abuse victims never report their abuse.
- Nearly 50% of all victims of forcible sodomy, sexual assault with an object, and forcible fondling are children under 12.
- More than 90% of abusers are people children know, love and trust.
- 30-40% of victims are abused by a family member.
- 50% are abused by someone outside of the family whom they know and trust.
- Evidence that a child has been sexually abused is not always obvious, and many children do not report that they have been abused.
- Young victims may not recognize their victimization as sexual abuse.
- Nearly 70% of child sex offenders have between 1 and 9 victims...at least 20% have 10 to 40 victims.
- An average serial child molester may have as many as 400 victims in his lifetime.
- Nearly 50% of women in prison state that they were abused as children.
- Over 75% of serial rapists report they were sexually abused as youngsters.
- The way a victim's family responds to abuse plays an important role in how the incident affects the victim.
- Sexually abused children who keep it a secret or who "tell" and are not believed are at greater risk than the general population for psychological, emotional, social, and physical problems often lasting into adulthood.
- Women who report childhood rape are 3 times more likely to become pregnant before age 18.
- An estimated 60% of teen first pregnancies are preceded by experiences of molestation, rape, or attempted rape. The average age of their offender is 27 years.
- Victims of child sexual abuse are more likely to be sexually promiscuous.
- More than 75% of teenage prostitutes have been sexually abused.
- An estimated 42 million survivors of childhood sexual abuse exist in America today.

Consequences of child sexual abuse begin affecting children and families immediately. They also affect society in innumerable and negative ways. These effects can continue throughout the life of the survivor so the impact on society for just one survivor continues over multiple decades. Try to imagine the impact of 42 million survivors--the number of survivors in America today. Prevention education is proven to be effective in reducing these statistics. We can all play a role in protecting children! Together we can make a difference!

Please return this form to your parish religious education director; our diocese must comply with the USCCB Office of Child Protection in tracking every child.

Parish Religious Education Director:

I am requesting that my child/children be out of the classroom when Safe Environment training takes place. I also understand that instructional materials for home use are available.
