

JOIN THE CRISTO REY TEAM AS A SCIENCE TEACHER!

*We believe our students need to see it if they're going to be it. This is why we provide our science teachers with **access to hundreds of STEM professionals** and help them **weave industry experience** into their instruction. It is also why our students spend one full day every week at **work-study internships**, freeing up teacher prep-time.*

Innovative Science Curriculum

Leadership opportunities as we pilot & deploy a new STEM program

Professional Development
