

## PROFESSIONAL DEVELOPMENT WORKSHOPS

**PARTNER with The Philadelphia Education Fund to develop professional capabilities that drive student outcomes.** We understand the relationship between teacher quality and student achievement. Our professional development workshops address contemporary and traditional challenges such as multi-cultural classrooms, STEM literacy, and college readiness. Review our list of sample topics, and contact our office for details. Our mission is to drive exceptional outcomes for all students by developing great teachers and building paths to college and career success.

Success  
Doesn't Just  
Happen...

IT'S  
CULTIVATED

**For whom are your workshops designed?** Classroom teachers, afterschool educators, museum staff, and other STEM educators may participate in our workshops.

**Where are these workshops held?** Our workshops can take place at your organization or at the Philadelphia Education Fund.

**How long are the workshops?** Most last for 2 hours, but longer & multi-session classes can be arranged.

**Do you provide online workshops?** All workshops can be delivered virtually as well as in person.

**Are these the only workshop topics you offer?** These are just SAMPLE workshops topics. Please contact us to discuss additional possibilities.

**Do you provide professional development other than workshops?** The Ed Fund can provide technical assistance, coaching, and other types of professional development.

**How much do the workshops cost?** Workshop fees are calculated based on location, number of participants, and other factors.

**Who facilitates these workshops?** Our workshops are presented by Ed Fund staff with backgrounds in content and adult learning theory.

**Do the workshops provide credits?** Many workshops provide Act 48 and Pennsylvania Quality Assurance System (PQAS) credits.

**Are the workshops aligned with academic standards?** Most Ed Fund workshops are aligned with local, statewide, and national academic standards.

**Who are your current customers?** Our customers include school districts, government agencies, nonprofits museums, institutions of higher education, and corporations.

**Can you evaluate the impact of your workshops?** We can connect our workshops to positive outcomes in staff, programs, and students.
