"Papers"

Thursday, May 18

"Papers" is the story of undocumented youth and the challenges they face as they turn 18 without legal status. There are approximately 2 million undocumented children who were born outside the U.S. and raised in this country. These are young people who were educated in American schools, hold American values, know only the U.S. as home and who, upon high school graduation, find the door to their future slammed shut. It is against the law to work or drive. It is difficult, if not impossible in some states, to attend college. They live at risk of arrest, detention and deportation to countries they may not even remember. Currently, there is no path to citizenship for these young people.
