## **“The Invisible Class”**

Thursday, March 19, 2020

Mass homelessness in the United States didn't always exist, so how did we get to where we are today? “The Invisible Class” explores what it truly means to be homeless in America, challenging stereotypes and examining the systemic causes of mass homelessness in the wealthiest nation in the world. From coast to coast, the film explores the story of homelessness across America: from the system that created it and the devastating impacts of the loss of affordable housing to the criminalization that perpetuates it.
