

Green Sanctuary & Citizen's Climate Lobby Event

When: Saturday, January 14, 9 am-Noon, UUCGT classroom

Please join us for a workshop to create the political will to address climate change. Become a citizen climate advocate and help create a livable world.

Who: Citizens' Climate Lobby (CCL) is a grassroots, non-partisan advocacy organization with 362 volunteer-led chapters worldwide. CCL volunteers work together to create the political will for climate solutions.

The workshop will be led by Elizabeth Dell, Great Lakes Regional Coordinator, and Elizabeth (Lisa) Del Buono, MD, Northern Michigan CCL chapter leader.

What: Learn to speak powerfully to your elected officials, the media and your community in order to inspire legislators to be leaders for a sustainable climate. Meet with members of Congress, launch letter-writing campaigns, write letters to the editor and op-eds and generate editorials advocating for a carbon fee and dividend policy. Find out how carbon fee and dividend works and why it would be an effective, bi-partisan solution.

Why: Experience the profound difference you can make by creating the political will your legislators need to be leaders in addressing climate change.

For more information or to RSVP, please contact Lisa Del Buono, 231-499-9197 or edelbuonomeyer@gmail.com. Sponsored by the Green Sanctuary Committee.
