

Laundry Detergent

What You Need

- Jug or mixing bowl that you can hold 1 liquid gallon and allows for stirring.
- ½ Cup Arm & Hammer Super Washing Soda
- ¼ Cup Borax
- 1 Cup boiling water
- 1 Tablespoon Castile Soap
- ¼ Cup distilled white vinegar
- Hot water
- Essential oils (optional)
- Large mixing bowl
- Whisk
- Spouted measuring cup or funnel

Directions:

1. Measure and add washing soda and Borax in a container. Give the dry ingredients a whisk to break up any clumps.
2. Cover the washing soda and Borax with the boiling water and whisk until the dry ingredients have dissolved. I stir, let it rest and then come back to it after the hot water has had a chance to soak in.
 - a. add the Castile soap.
 - b. Add the vinegar and stir.

(If you are using a mixing bowl that doesn't hold a full gallon you can transfer to gallon container at this time.)

3. Add hot water while gently whisky until you reach 1 gallon liquid measure.
4. Option to add 10 – 20 drops of your favorite essential oil.

Approximately 1/3 Cup cleans a big load of clothes!
