

ProAssurance Live Loss Prevention Seminars Cancelled through April 30, 2020

To limit the risk of COVID-19 community spread, ProAssurance is cancelling all public loss prevention seminars through April 30, 2020. You are receiving this email because you are currently registered for a now-cancelled seminar.

We will continue to monitor and assess the situation and will communicate alternative options as the situation evolves. Your health and public safety come first.

Your registration fee can either be held as credit toward a future public seminar or refunded. At this point we assume many of our seminars will be rescheduled for later in the year and will hold registration fees as credit. If you prefer a refund now, please call the Risk Resource department at 844-223-9648.

If you are an insured physician, registered for a live seminar, and eligible to receive a premium credit for attending a seminar, you will be able to take *Hindsight 2020* online for full premium credit. We typically release the online version in June, but are expediting production this year. You will hear from us as soon as it's available.

We appreciate your understanding and will keep you updated as more information is available.

Your Risk Resource team is here to assist you at RiskAdvisor@ProAssurance.com or 844-223-9648. For questions about premium credit, please contact your agent or your ProAssurance underwriter at 800-282-6242.
