

# Webinar Series on Earthquake Resilience for Water and Wastewater Utilities

JUNE 12, 2019 AT 1:00PM EDT

Earthquake Threats, Resilience Tools, and Project Funding

JUNE 19, 2019 AT 1:00PM EDT

Utility Examples to Mitigate Earthquake Impacts

**The U.S. Environmental Protection Agency** invites you to join our webinar series on earthquake resilience for water and wastewater utilities. In these hour-long webinars, you will learn about earthquake risk, mitigation strategies, and resilience resources tailored to utilities. Question-and-answer periods offer participant interaction with the speakers.

## WEBINAR 1

June 12, 2019

**Earthquake Threats, Resilience Tools, and Project Funding**

**Register for Webinar**

Topics include:

- Earthquake Threats
- EPA Earthquake Resilience Products
- Mitigation Strategies
- Hazard Mitigation Plans and Project Funding

## WEBINAR 2

June 19, 2019

**Utility Examples to Mitigate Earthquake Impacts**

**Register for Webinar**

How did Different Utilities:

- Evaluate Seismic Risk
- Mitigate Seismic Risk
- Pursue Funding
