Dear Parents/Guardians,

Just a reminder that all 12 graders in Ohio are required to have the 2nd dose in the series of the Meningococcal vaccine (MenACWY). If 16 or older and no previous dose just one dose is needed. Most students have received their first dose by 7th grade and typically the 2nd by the age of 16. If this has not been received yet, please make sure it is completed **ASAP**. **The state of Ohio requires proof of immunization or an exemption form to be on file in their permanent health records within the first 2 weeks of the school year.** If you have any questions or concerns regarding this letter, please call the Main Office or you may reach me @ gpierro@rollred.org or ext. **3135**. I appreciate your cooperation and wish everyone a great 25/26 school year! **ROLL RED!!**

Respectfully,

Gina Pierro RN
