

## By Cornelia Wolf, NEDP Advisor

Congratulations to **Tayyba Sana Ullah** for completing our NEDP Program and earning her Maryland high school diploma in June!

She is originally from Pakistan where she earned a teaching certificate from her university.

Tayyba has been very motivated to continue her education in the United States.

She studied very hard in our ESL classes, then entered our NEDP prep class, and succeeded in earning the required reading, writing and math test scores to start the online NEDP program. Tayyba completed all of her assignments successfully in 10 months despite the difficulties of doing so during this pandemic!

She hasn't stopped yet.

She is currently taking an online class, Medical Terminology - a Word Association Approach, to be followed by a six-month online course for Pharmacy Technician through Chesapeake College.

We are very proud of You!
