

# Joys & Concerns

Date: May 10, 2020

## **Kent Newman**

After 4 weeks working 12-hr shifts on an adult Covid 19 ICU at Bronx Jacobi North Hospital, my RN daughter Signe felt ill in the hotel where the nurses are staying last Sunday. She went to an urgent care clinic and got a Covid test, was off work for three days until the test came back negative. She planned to return to work and request to work in the ER, which is her experience, rather than ICU for a change. Thanks for holding her in your thoughts and prayers. She found a day care at St. Francis of Assisi in WDM that is providing free daycare for children of essential workers and spouses, so John can take Harriet and Abel there and work from home during the day. They are all fine.

## **Nicole & Matt Ferguson**

We would like to announce the arrival of our first human child. Theodore Gregory Ferguson was born May 1st, 2020. Mom, dad, and baby are all doing well, and big brothers Skywalker and Maverick are adjusting well to the new human. We look forward to when we can bring Theo to church for the first time!
