

KGPR 89.9FM (kgpr.org) is proud to be a fellow chamber member and providing the only LOCALLY produced and focused public radio that serves Great Falls, Cascade County and surrounding communities. The traditional spring pledge drive with MTPR (mtptr.org) was delayed to 3-8 June so our listeners, donors and sponsors could cope with COVID19 as KGPR provided timely COVID19 updates, in-depth interviews and features and promoted businesses and groups hit hard by the virus consequences.

Our loyal listeners, donors and sponsors help sustain your LOCAL KGPR public that brings you locally produced and focused events, music, in-depth interviews and features, the community calendar and public service announcements. Local financial support not only provides KGPR the ability to focus in local activities, but also allows us to fund national, global and Montana news and

features from our partner station Montana Public Radio, MTPR out of Missoula.

Sponsorships are greatly appreciated to help sustain and build more local programming and can be developed to match the sponsor's budget and goals. Our local Great Falls public radio demographics show our listeners to be very locally focused, engaged and informed citizens and consumers who value businesses and organizations in our community.

Please tune into 89.9FM and visit our website, kgpr.org, to sample our programming and you can contact Richard Liebert, President of the Great Falls Public Radio Association(406-736-5791, wwranch@3rivers.net) and learn how you can sustain locally produced and focused KGPR...'keeping it local, keeping you informed.'
