FUTURE GREAT FALLS

CITY OF GREAT FALLS GROWTH POLICY UPDATE

Dear community partners,

I'm sure you've heard by now that the City of Great Falls is in the midst of updating its Growth Policy - a visioning document that sets goals and objectives for our city over the next 20 years. As part of our Growth Policy update, our city team has set the goal of conducting the greatest public engagement effort in the history of Great Falls - this plan will truly reflect it's nickname of 'The People's Plan'. This is a high bar to set, and we need your help in achieving our goal!

Over the next few months, we will be looking for the public's feedback via a community wide survey. In order to incentivize our residents to give their input, we are looking for donations from our local businesses to use as weekly drawing prizes. Our City departments are chipping in too! We are offering survey winners prizes like free downtown parking passes and access to our Park and Recreation facilities. If you have services, merchandise, or gift cards you are willing to contribute to our giveaway, we would love to coordinate with you!

Your generosity and commitment to Great Falls is greatly appreciated as we work to build a community that reflects the visions and ideas of the people who make up our incredible city.

Let's work together to create a Future Great Falls that we're all proud of. Please contact Alaina Mattimiro via email at amattimiro@greatfallsmt.net with any questions. Please have any donations to our office by January 17, 2025.

Best,

Brock Cherry
PLANNING AND COMMUNITY DEVELOPMENT DIRECTOR
