Providing Long-Acting Injectable (LAI) Antipsychotics to Outpatient Mental Health Centers, Group Homes and/or other LTC Patient Settings?

The mission of AAP/GeriMed's newly-formed partnership is simple—align AAP pharmacies with proven opportunities that enhance their bottom-line and strengthen their position as leading health care providers. This is why we invite AAP members to learn more about the competitive purchasing discounts now available to them via GeriMed's **LAI Antipsychotics Discounts LTC Program**.

Who is the LAI Program Intended to Benefit?

GeriMed has worked with the LAI manufacturers, including **Johnson and Johnson (Janssen)**, **Alkermes**, and **Otsuka** to develop a tailored purchasing savings program to assist **closed-door** and **'combo'** LTC pharmacies dispensing Long Acting Injectable (LAI) Antipsychotics into LTC patient care settings.

The LAI Program is intended for patients being treated in or living in:

- Outpatient Mental Health Centers
- Psychiatric/ Mental Health/ Behavioral Health
- Assisted Living
- Skilled Nursing
- Correctional
- Group Homes
- Intermediate Care Facilities – ICF-IID

How Does My Pharmacy Benefit?

Through GeriMed's industry-leading and validated processes, AAP members who are candidates for this program experience significant savings by way of a mixture of contractual manufacturer upfront discounts and rebates.

Here are a few of the many benefits of this unique solution:

- **Johnson and Johnson** contract for **Invega Sustenna®**, **Invega Trinza®** and **Invega Hafyera®** – small upfront discount with larger rebates
- **Sustenna®** requires 50 units to be purchased quarterly to achieve rebate
- **Trinza®** and **Hafyera®** are access rebates and there is no minimum purchase volume/requirement to achieve rebates
- **Alkermes** contract for **Aristada®** and **Aristada Initio®** – upfront discount with opportunity for additional discount through a market share rebate
- **Otuska** contract for **Abilify Maintena®** – upfront discount with opportunity for additional discount through a growth rebate
