

RELATIONSHIPS FIRST

PROMOTING FIRST RELATIONSHIPS ACROSS MISSOURI

At Missouri AIMH-EC, our work is grounded in one core belief: **relationships matter**. MOAIMH-EC is working to optimize well-being in the early years by promoting first relationships and advancing effective infant and early childhood mental health practice across the state.

You're invited to join us for a 2-part, statewide Roadmap conversation focused on the opportunities ahead for infant and early childhood mental health in Missouri.

Together, we'll explore shared priorities, partnerships, and strategies that strengthen relationships – supporting infants and caregivers, strengthening systems, and building connected communities.
