

Music with Mr. Crounse

Grades K-8

This October and November our students in grades 5-8 have been working on written music notation. Due to the current situation with covid-19 we have unfortunately been unable to use the instruments. Making this a complete departure from previous years. In order to help facilitate learning, all of the students are aware that they should be watching the review videos I post weekly in my google classroom.

Third and fourth grade students have been, since the beginning of the school year, working with recorders. Well, virtually working with recorders. We have been reviewing materials in class which is being supplemented with video lessons I post in my google classroom.

Usually November would mean the beginning of concert preparations for our annual Christmas Concert. This is not in the cards for 2020. All of my posts for students grades kindergarten through second grade have been about singing. We have spent our in person time together learning about instruments and music in general. And hopefully the songs I record and post in my google classroom are helping to give some semblance of normality.
