

FORMATS & RULES

KING OR QUEEN OF THE COURT

An individual event where you play multiple rounds (minimum 4) of doubles with various male or female partners of similar ability, in a round-robin format accumulating points for yourself instead of as a team.

Individual players with the most points in round robin play advance to final round(s) to earn awards & prizes.

This is a great format to make connections in the pickleball community and gain competitive experience in a social environment. It removes the risk of being eliminated before the final round(s) unlike traditional tournaments and you don't need to find a partner of similar skill & ability in order to participate.
