

## THE AMIDA CARE FUND OF STONEWALL COMMUNITY FOUNDATION

### Requests for Proposals: Grants for Innovative HIV Prevention and Services

#### Overview

The Amida Care Fund at Stonewall Community Foundation works to fund programs and projects on the cutting edge of HIV prevention and services in New York City, especially those aimed at curbing the epidemic in line with municipal and state campaigns. The Fund seeks broad-based prevention and intervention strategies that engage members of the LGBTQ community who are most at risk for HIV infection, or who are HIV positive but not virally suppressed or receiving necessary care. The Fund is announcing its third grant cycle with multiple grants, which will range in size from \$2,000 to \$5,000.

#### Eligibility Requirements

A qualifying organization is one that:

- Is focused on residents of, or clients in, New York City
- Serves people who are lesbian, gay, bisexual, transgender, queer, intersex, or MSM and also HIV-positive or at greatest risk for new infection
- Works to eliminate the spread of HIV among low-income black and Latino young men who have sex with men, or who are GBQ-identified, and/or transwomen

Preference will be given to proposals and projects that can demonstrate direct impact. Small grassroots organizations are strongly encouraged to apply.
