The Nevada County Sheriff's Office Launches Evacuation Tag Initiative to Help Alert First Responders During a Wildfire

June 25, 2020, Nevada County CA—The Nevada County Sheriff's Office is providing free "EVACUATED" tags for residents to place in a highly visible place such as a door, reflective address sign, mailbox, fence, or gate as they evacuate their residence during an emergency. These tags will help first responders swiftly identify which homes have been evacuated so they can focus their attention on those who still need help and decrease overall evacuation times.

With fire season right around the corner, these evacuation tags, when used properly, will greatly help first responders quickly identify if a resident has already evacuated from a hazardous area. When an evacuation order is deemed appropriate, time is of the essence and these tags will provide visual cues that allow first responders to efficiently and swiftly evacuate neighborhoods," says Sheriff Shannan Moon. "Forecasts are showing a very dry and potentially dangerous fire season, it is important that as a community begin preparing now. These new evacuation tags are an additional way that we can work together to create a safer Nevada County," added Sheriff Moon.

Office of Emergency Services will continue training community members on the best way to use this important new tool via the *Ready Nevada County* outreach initiative and hopes others will share this new evacuation step with friends and neighbors. It is a simple step, but it is important to keep the tag in a place where it is easy to find and remember to use it by placing it somewhere first responders can find it like a mailbox or reflective address sign. "In 2019 our community stepped up their preparedness and we are excited to add this new tool to the overall recommended emergency plan. It is a compliment, not a replacement of the best practices we advocate, like having a go bag ready, being familiar with the Hi-Lo evacuation siren, and knowing evacuation routes," says Program Manager, Paul Cummings.

It is understood that some residents may be apprehensive to place a sign like this in front of their homes, believing it could invite criminal activity. The Sheriff's Office, who oversees evacuations, assures all concerned residents that once an area is evacuated law enforcement will minimize access to those areas. Deputies will then saturate those evacuated areas with patrols. The process can help alert law enforcement to suspicious activity in clearly marked evacuated neighborhoods.

These tags are free and may be found at the following locations throughout Nevada County:

Nevada County Sheriff's Office
950 Maidu Avenue, Nevada City, CA 95959

Nevada County Sheriff's Office – Truckee Substation
10879 Donner Pass Rd., Truckee, CA 96161

Higgins Fire District
Station 21
10106 Combie Rd., Auburn, CA 95602

Station 23
20604 McCourtney Rd., Grass Valley, CA 95949

Nevada County Consolidated Fire District
Station 84
640 Coyote Street, Nevada City, CA 95959

Station 89
11833 Tammy Way, Grass Valley, CA 95949

Peardale Chicago Park Fire Protection District
Station 57
18934 Colfax Hwy, Grass Valley, CA 95945
