

CALL FOR RESEARCH PARTICIPANTS

# Research Project on Novel Ways to Study Driving of Older Adults

To improve decision-making about driving for older drivers by using mobile technology

The study involves two visits to the University of Calgary Main Campus, and using a Driving Monitoring Device in your vehicle for 8 weeks.

This research project is open to all active drivers 65 years or older who are diagnosed with mild cognitive impairment OR mild dementia.

*You will be reimbursed for your participation.*

Participation in this study will have NO impact on your driver's license.

*The University of Calgary Conjoint Faculties Research Ethics Board has approved this study (REB 5799).*
