or other alignment tool
TE Sequins - Wedding
Stencil Brushes

Pinecones

by Kim Singdahlsen

1. Cut a 5 1/2" x 8 1/2" piece of Sugar Cube cardstock; fold in half.
2. Cut 5 1/2" x 4 1/4" piece of Toffee cardstock and stamp with the Woodgrain Background stamp using Sugar Cube ink.
3. Cut a piece of Sugar Cube cardstock to 3" x 4 1/8". Lightly brush Salt Water Taffy ink from one corner of the panel outward. Stamp various pine boughs with Sweet Basil and Dijon ink. Splatter the panel with gold ink.
4. Stamp the large pinecone and the small pinecone layers as follows, then die cut:
 - Base layer in Toffee
 - Second layer in Chocolate Truffle stamped off once on scrap paper.
 - Top layer in Chocolate Truffle
 - Tip: There is a fourth layer to the large that can be stamped in white or can be white embossed for "snow." It is not used in this sample.
5. Die cut the frame from Sugar Cube cardstock using the second Stitched Frame Stacklets die.
6. Die cut the Hello Script two times from Chocolate Truffle cardstock. Adhere to each other to add dimension.
7. Die cut the bow from Sweet Basil cardstock.
8. Assemble the layers all as shown, using foam adhesive for the frame. Attach the pinecones, bow, and hello. Embellish with gold sequins.
