

Robinson Crusoe As a lifetime reader, my most favorite book of all time Robinson Crusoe. Most folks think it's a kids book but that's not correct. If you check Amazon ratings, there are hundreds of 4 or 5 star reviews which isn't written by 6 year olds. The actual shipwreck starts in Chapter 4 and the story is exciting; filled with ingenuity, perseverance, overcoming isolation and courage - all aspects of today's challenges. I think by the end of the 19th Century, it was the most read fiction title. It has morphed into movies, cartoons, board games - plenty for family enjoyment.
