Join Peterson Garden Project April 27-28 and May 10-11 for our annual Edible Plant Sale geared toward urban and small-space gardeners and offering items you won't see anywhere else in Chicago. Buy organic plants, seeds, books, tools, compost, fertilizer, and more —everything you'll need to get your edible garden growing. Proceeds from the sale benefit PGP's free education programs.

This year's sales will be held at our sister organization, City Grange, Chicago's new year-round organic garden center. This social enterprise expands the mission of PGP by providing a wider selection (including natives, pollinator friendly plants and flowers) as well as hardgoods, gifts and more. City Grange is also offering a job training program to youth looking to have a future in the garden industry.

All Organic! Our plants are all certified organic and selected by our team to provide unique varieties that are easy to grow in Chicagoland to ensure your success. Plants are grown just for us by local organic growers including Montalbano Farms.

Two Sales Are Twice the Fun! The **Cool Crops** sale on April 27 and 28 features plants that don't mind a little spring chill (Brussels sprouts, broccoli, cauliflower, salad greens, herbs, and edible flowers). We'll have everything you need for your first planting, whether you're gardening with us or in your own backyard.

For the **Hot Crops** sale from May 11 and 12, we're turning our attention to summer favorites: tomatoes, peppers, eggplant, basil, and more. In addition to seeds and seedlings, the May sale will also include baked goods with sweet and savory treats donated by local chefs, home cooks, and our Community Cooking School instructors.

Compost and Organic Fertilizer, Tools, Advice, and More! Purple Cow Organics and Midwest Trading are providing awesome compost this year to help boost your garden yields. We'll also have organic fertilizers, seeds, tools, Grewbie kits (everything you need to lay out your square foot gardening grid), PGP t-shirts and hats, and seed potatoes.

Both plant sales are BYOB (Bring Your Own Bag or Box). Please bring your own boxes, bags, or other containers to transport your goodies home.
